

Name: Advika Raj

SRN: PES1UG24CS906

KBPS#60

Creation of Epics

Description: Three Epics were created to organize the major functional areas of the Podcast Guest Scheduling & Outline Builder system. **Interview Scheduling** covers interview slot selection, availability management and booking confirmation. **Guest Information Management** covers reviewing guest submissions. **Episode Production** covers run-of-show generation and the required performance and security requirements.

2. Creation of User Stories

The image displays two screenshots of the Jira Kanban board for the space **Kanban_BPS#60**. The board is organized into a single column labeled 'Work'. Each item is represented by a card with a title, a key, an assignee, a reporter, a priority, and a status.

Top Screenshot (Items 1-10):

Item	Key	Title	Assignee	Reporter	Priority	Status
1	KBPS60-1	Interview Scheduling	Unassigned	Advika Raj	Medium	To Do
2	KBPS60-4	FR-001 - Select Interview Slot and Subm...	Unassigned	Advika Raj	High	To Do
3	KBPS60-5	FR-002- Manage Interview Availability	Unassigned	Advika Raj	High	To Do
4	KBPS60-8	FR-005- Send Booking Confirmation	Unassigned	Advika Raj	High	To Do
5	KBPS60-11	Implement Guest Booking and Topic Su...	Unassigned	Advika Raj	High	To Do
6	KBPS60-12	Implement Host Availability Management	Unassigned	Advika Raj	High	To Do
7	KBPS60-15	Implement Booking Confirmation	Unassigned	Advika Raj	High	To Do
8	KBPS60-2	Guest Information Management	Unassigned	Advika Raj	Medium	To Do
9	KBPS60-6	FR-003- Review Guest Submission	Unassigned	Advika Raj	High	To Do
10	KBPS60-13	Implement Guest Submission Review	Unassigned	Advika Raj	High	To Do

Bottom Screenshot (Items 11-17):

Item	Key	Title	Assignee	Reporter	Priority	Status
11	KBPS60-3	Episode Production	Unassigned	Advika Raj	Medium	To Do
12	KBPS60-7	FR-004- Generate Run-of-Show	Unassigned	Advika Raj	High	To Do
13	KBPS60-9	NFR-001- Fast Production Sheet Generati...	Unassigned	Advika Raj	High	To Do
14	KBPS60-10	NFR-002- Secure Episode Information	Unassigned	Advika Raj	High	To Do
15	KBPS60-14	Implement Run-of-Show Generator	Unassigned	Advika Raj	High	To Do
16	KBPS60-16	Optimize Production Sheet Generation	Unassigned	Advika Raj	High	To Do
17	KBPS60-17	Implement Access Control	Unassigned	Advika Raj	High	To Do

- FR-001 — Select Interview Slot and Submit Discussion Topics
- FR-002 — Manage Interview Availability
- FR-003 — Review Guest Submission
- FR-004 — Generate Run-of-Show
- FR-005 — Send Booking Confirmation
- NFR-001 — Fast Production Sheet Generation
- NFR-002 — Secure Episode Information

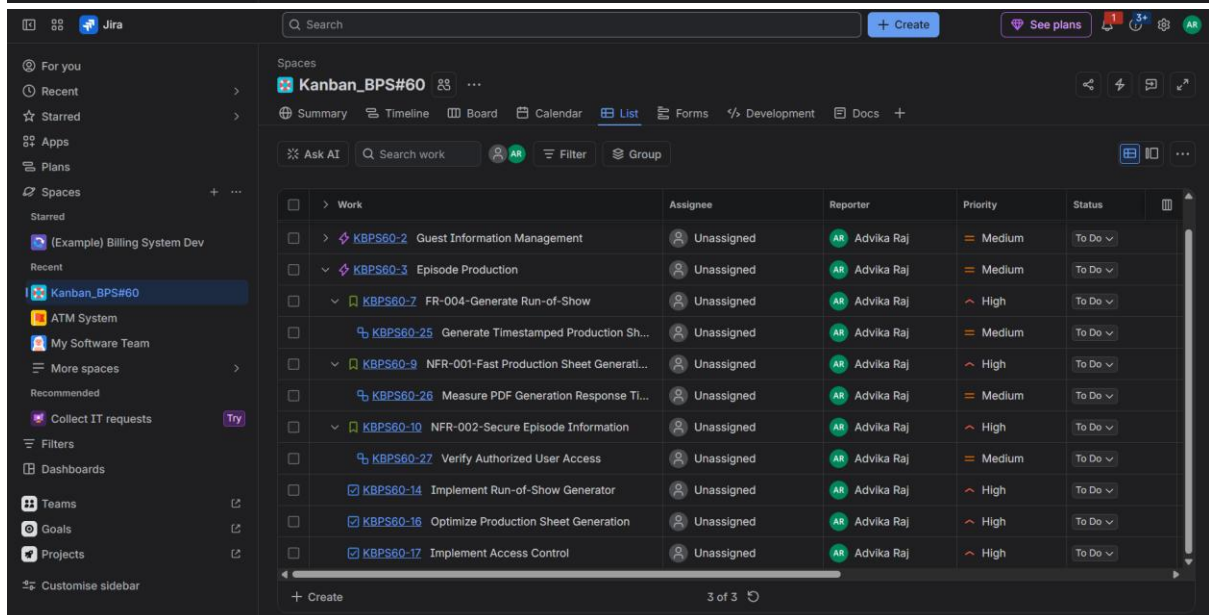

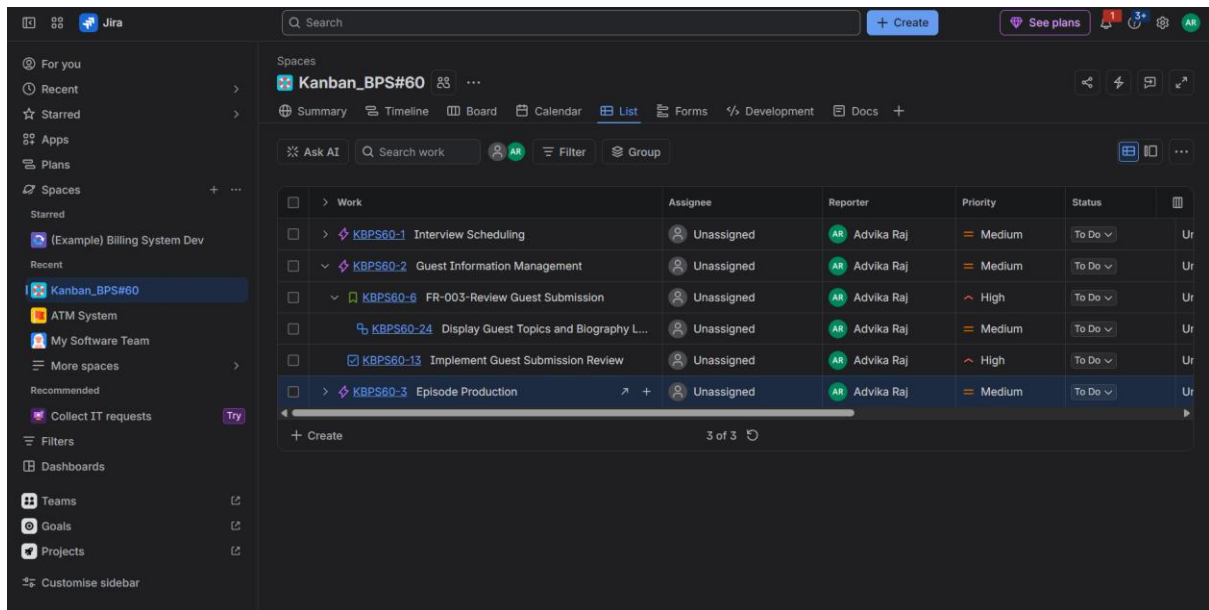

Description: User Stories were created for all five Functional Requirements (FRs) and two Non-Functional Requirements (NFRs) from the problem statement. Each Story represents an individual requirement that needs to be addressed by the system.

3. Creation of Tasks and Subtasks

The screenshot displays the Jira interface for a Kanban board named "Kanban_BPS#60". The board is currently in the "List" view. The left sidebar shows the navigation menu with options like "For you", "Recent", "Starred", "Apps", "Plans", "Spaces", "Stared", "Recent", "Kanban_BPS#60", "ATM System", "My Software Team", "More spaces", "Recommended", "Collect IT requests", "Filters", "Dashboards", "Teams", "Goals", "Projects", and "Customise sidebar". The main content area shows a list of tasks and subtasks, all assigned to Advika Raj. The tasks are as follows:

Task ID	Task Name	Assignee	Reporter	Priority	Status
KBPS60-1	Interview Scheduling	Unassigned	Advika Raj	Medium	To Do
KBPS60-4	FR-001 - Select Interview Slot and Subm...	Unassigned	Advika Raj	High	To Do
KBPS60-18	Create Interview Slot Selection Form	Unassigned	Advika Raj	Medium	To Do
KBPS60-5	FR-002-Manage Interview Availability	Unassigned	Advika Raj	High	To Do
KBPS60-20	Create Availability Management Interf...	Unassigned	Advika Raj	Medium	To Do
KBPS60-8	FR-005-Send Booking Confirmation	Unassigned	Advika Raj	High	To Do
KBPS60-23	Create Calendar Invitation Notification	Unassigned	Advika Raj	Medium	To Do
KBPS60-11	Implement Guest Booking and Topic Su...	Unassigned	Advika Raj	High	To Do
KBPS60-12	Implement Host Availability Management	Unassigned	Advika Raj	High	To Do
KBPS60-15	Implement Booking Confirmation	Unassigned	Advika Raj	High	To Do
KBPS60-2	Guest Information Management	Unassigned	Advika Raj	Medium	To Do

The board is in the "List" view and shows 3 of 3 items. The bottom of the board has a "+ Create" button and a "3 of 3" indicator.

Description: Tasks were created for each of the seven requirements to represent the implementation work required to satisfy them. A Subtask was also created for each requirement to divide the implementation work into a smaller activity. The Tasks and Subtasks are organized under their respective Epics in Jira.

Requirement Task

FR-001 Implement Guest Booking and Topic Submission

FR-002 Implement Host Availability Management

Subtask

Create Interview Slot Selection Form

Create Availability Management Interface

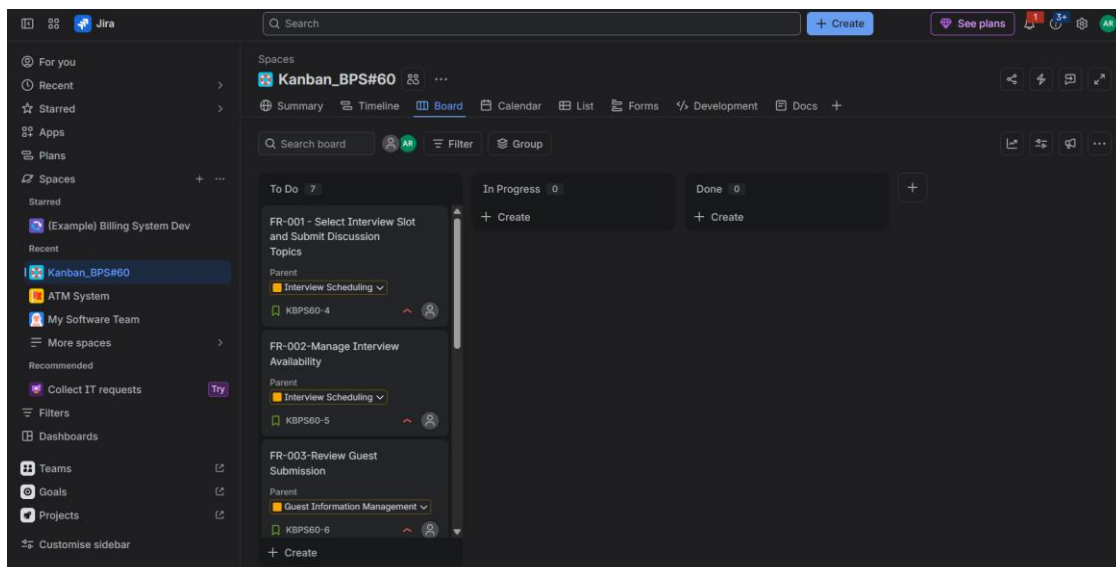

Requirement Task	Subtask
FR-003 Implement Guest Submission Review	Display Guest Topics and Biography Links
FR-004 Implement Run-of-Show Generator	Generate Timestamped Production Sheet
FR-005 Implement Booking Confirmation	Create Calendar Invitation Notification
NFR-001 Optimize Production Sheet Generation	Measure PDF Generation Response Time
NFR-002 Implement Access Control	Verify Authorized User Access

4. Kanban Backlog

Description: The Jira **List view** was used to represent the Kanban backlog. It provides a consolidated view of the Epics, User Stories, Tasks and Subtasks created for the project. The work items are grouped under their respective Epics, allowing the complete backlog structure to be viewed and managed.

Note: The List view screenshots shown in the previous section also represent the project backlog because they display the complete set of created work items and their Epic relationships.

5. Kanban Board

Description: The Kanban board provides a visual representation of the project workflow. Work items can be moved through the stages **To Do**, **In Progress**, and **Done** as development progresses.
